DEAN - Department of
Pharmaceutical Sciences &
Research

Prof. (Dr.) Vinod Kumar Gautam
DEAN - SGT College of Pharmacy

ABOUT IPGA

The Indian Pharmacy Graduates' Association (IPGA), established in 1973, operates as a registered society under the Societies Registration Act of 1860. It serves as a prominent professional organization dedicated to uniting pharmacy graduates and advancing the field of pharmaceutical sciences.

Affiliated with the Indian Pharmaceutical Congress Association (IPCA), IPGA plays a key role in fostering professional growth, enhancing knowledge sharing, and advocating for the interests of pharmacy professionals. Its initiatives include organizing educational events, industrial visits, and workshops to empower students and professionals alike, contributing significantly to the development of the pharmaceutical sector in India.

ABOUT IPGA-SF

IPGA-Student Forum is the leading national advocacy organisation for pharmacy students aimed at promoting the status of the pharmacy profession and enhancing public health. It instils professionalism and provides the required skill set in young people, which helps them in holistic personality development. Various activities, events, and workshops are conducted to impart pharmacy students with the optimum knowledge, qualities, and perseverance to achieve their goals. The Indian Pharmacy Graduates' Association Student Forum was founded in 2017 in Delhi, India under the aegis of Indian Pharmacy Graduates' Association.

ABOUT PHARMAURA

PharmAura aims to create a vibrant platform that integrates knowledge, practical skills, and creativity among pharmacy students. It encourages innovation, professional growth, and inspires participants to contribute towards the advancement of global healthcare. The initiative bridges the gap between theoretical learning and its practical application in the pharmaceutical field through diverse and interactive events designed to foster critical thinking, teamwork, and innovation.

Its core objectives include promoting scientific exchange, enhancing expertise in compounding and dispensing, as well as encouraging creativity in health communication. PharmAura also focuses on strengthening problem-solving abilities through quizzes and case studies, while fostering teamwork, leadership qualities, and preparing students to tackle real-world healthcare challenges.

EVENT DETAILS

INNOVATION WALL

Digital scientific poster presentation

A platform for students to present research, innovative studies, or case reviews in Pharmaceutical Sciences. Emphasis on clarity, creativity, and relevance of research. Enhances critical thinking and scientific communication skills.

Poster Competition

EXPOSITION

Simulation Lab Tour

The event will be a Simulation Lab Tour with hands-on demonstrations of equipment and essential life-saving skills, including CPR, breathing techniques, Heimlich manoeuvre, and First Aid. Participants must bring their lab coat.

MEDIMIX MARATHON

Memory, Scramble, and Decode

A fast-paced event combining memory, vocabulary, and problem-solving through three thrilling rounds. It challenges recall, teamwork, and pharmaceutical knowledge under time pressure, making learning both engaging and competitive.

DOSE AND DRAMA

Pharma Ad/Reel Making Challenge

An engaging event where participants design short, impactful ads or reels on pharmaceutical and healthcare themes. It blends creativity, innovation, and persuasive communication to spread awareness on key health issues, combining education with entertainment and giving students a platform to present their ideas in a visually striking and impactful way.

CASE CRACKERS

Case study

A case-based challenge where participants are presented with patient symptoms, lab reports, and medical histories. They must analyze the data and correctly identify the disease or condition. Tests clinical reasoning, problem-solving, teamwork, and applied pharmaceutical knowledge.

POTION TO PRECISION

Compounding and Dispensing Competition

A team-based practical event focused on designing or preparing pharmaceutical formulations such as creams, suspensions, dosage forms, or innovative delivery systems. Evaluates technical knowledge, creativity, accuracy, and collaboration. Provides hands-on exposure to formulation science and pharmaceutical compounding
