ABOUT US

ABOUT IPGA

“Empowering pharmacy graduates, uniting professionals, and advancing healthcare through knowledge, advocacy, and collaboration.”

The Indian Pharmacy Graduates' Association (IPGA), established in 1973 and registered under the Societies Registration Act, 1860, is a national-level professional body dedicated to the upliftment of pharmacy professionals. It has 17 state branches and 11 local chapters, and is affiliated with other key organizations, including the Indian Hospital Pharmacists' Association (IHPA), the Association of Pharmaceutical Teachers of India (APTI), and the All India Drugs Control Officers' Confederation (AIDCOC). With a current membership of over 10,000 life members across the country, IPGA's core mission is to improve the professional status of pharmacy graduates and secure their rightful place in the profession.

As a charitable professional organization, IPGA is affiliated with the Indian Pharmaceutical Congress Association (IPCA). It actively engages in various activities, including conducting workshops, annual conferences, and seminars to enhance the knowledge and skills of pharmacy professionals. The association also publishes a quarterly newsletter, "IPGA Today," which highlights the activities of its state branches and recent advancements in pharmaceutical sciences.

The association aims to help its members become skilled pharmacy professionals who can serve the global healthcare system. It works to ensure pharmacy graduates receive proper education, builds strong relationships among its members, and advocates for their contributions with key decision-makers.

ABOUT 37th IPGA CONCLAVE

The 37th IPGA Conclave, taking place on November 8, 2025, is a landmark event organized by the Indian Pharmacy Graduates' Association (IPGA) at Babasaheb Bhimrao Ambedkar University (BBAU) in Lucknow. This year's conclave will explore a forward-thinking and highly relevant theme: "Innovation at the Crossroads: Pharmacist, AI, and the Future of Patient Care."

The conclave gathers top minds in pharmacy, technology, and healthcare to discuss how groundbreaking tools like Neuro-Symbolic AI can change patient care. This approach combines the best of what AI can "see" with what it can "think," helping to create truly personalized, safer treatments for every patient.

Beyond the technological advancements, the conclave places a strong emphasis on Ethical Innovation. Discussions will centre on the responsible development and implementation of AI in pharmacy, ensuring that these powerful tools are used in a fair, transparent, and secure manner. The event will serve as a crucial platform for professionals to exchange ideas, share research, and shape the future of pharmacy in an era of rapid technological change.

ABOUT COLLABORATOR

Baba Saheb Bhimrao Ambedkar University(BBAU)

Baba Saheb Bhimrao Ambedkar University (BBAU), a central university in Lucknow, Uttar Pradesh, was established on January 10, 1996, by an Act of Parliament. Named after Dr. B.R. Ambedkar, the architect of the Indian Constitution, the university's core mission is to promote knowledge, social justice, and equality. BBAU offers a wide range of undergraduate, postgraduate, and doctoral programs across various fields, including science, pharmacy, engineering, arts, management, and law.

The university is a socially responsible learning community. It has a special provision of 50 percent reservation in all courses for Scheduled Caste and Scheduled Tribe students, reflecting its commitment to uplift the marginalized sections of society. Its campus, spread across 250 acres, provides a modern and eco-friendly environment with state-of-the-art infrastructure, including a central library, advanced labs, and residential facilities. It has been accredited with an 'A++' Grade by NAAC and was ranked 33rd in the NIRF 2024 rankings. BBAU prepares students to be socially and ethically responsible global citizens through a focus on high-quality education, research, and skill development.

WHO SHOULD ATTEND THE CONCLAVE?

The 37th IPGA Conclave warmly welcomes participation from pharmacy graduates, postgraduate students, research scholars, and professionals representing diverse domains of the pharmaceutical sciences including delegates from academia and research institutions, regulatory affairs and policy-making bodies, the pharmaceutical industry and its R&D divisions, as well as professionals in quality assurance, clinical trials, pharmacovigilance, and community, hospital, and clinical pharmacy practice. The conclave provides a unique opportunity for students, young researchers, educators, industrial experts, healthcare practitioners, and policymakers to engage in meaningful dialogue, expand professional networks, and gain insights into the future of pharmacy in the era of digital transformation and AI-driven healthcare.
